Purpose

A large but simple advertising platform where users can create, discover and share a well categorised array of club events, shopping sales, restaurant specials and much more.

Current Agile Development Plans

-Addition of more categories such as Arts&Culture, Business and Education. This will allow an increase in traffic, allowing peoples ads to be seen and clicked on more often.

-A premium account shall be released, allowing users to design their own theme for their website. It shall cost \$1pm. Having a premium account will give users access to the ad free mobile app.

-A mobile app will be released with two versions on the app stores, one version containing pop up ads and it will be free. The other will be \$1pm and will not have the pop up ads. Having bought the app will give users access to the premium website as well.

-Further plans will be revealed in time.

Admin User Role

-Fomo Admin are in charge of data control such as checking on flagged events, deciding which ads go where and deciding who gets to use the website.

-Admin should be individuals not looking for this to be their endgame but just a side source of income. When they are tired of their role they will be able to pass it on to someone else.

-Fomo Admin earn 5% of the websites total earnings and are paid at the end of every week.

-Each admin should have a bank account within Uganda.

-Admin account's are allowed to edit/delete any events, users and galleries. Admin have access to 8 control pages;

- Top Events
- Flagged Events
- Flagged Users
- Flagged Pictures
- Advert Bar
- Advert Space
- Uganda Teams
- Attractions

-The Top Events Page is used for social media purposes.

-The Flagged pages have all events, users and pictures that have received a flag for inspection by other users. They shall be ordered from most flags to least and split into the different categories. Admin should regularly browse through flagged data and determine whether it should be taken down or not. If any event receives a number of flags greater than or equal to 10% of the total number of people going to that event, it will be automatically deleted by the app.

-The Advert Bar page is where Admin will be able to edit the events that go within the advertisement bar that appears on the top of every page. There can be a maximum of 10 events within the bar at a time. Admin should discuss and decide upon which events will be displayed in the the bar.

-The Advert Space Page is where Admin have access to all the 356 ads on the website, here they can preview the ad space throughout the the website to business owners and have individuals select where to put their ads. The page will show which ad spaces are currently taken and which are occupied by a random google Adsense ad.

-The Uganda Teams page is used to enter the National team sporting events and National Sports teams.

-The Attractions Page gives Admin access to the data that goes on the "Things to do" page. This page is currently split into 3 parts;

- Jinja Adventures
- Parks & Wildlife
- Landmarks to visit

This page can be expanded upon as there can be countless different things to do in a whole country, if any Admin hear or come up with any bright ideas, make sure to bring them up.

Social Media Accounts Management

-With Instagram, facebook and twitter the admin will have access to the Top Events page where they can see the top 3 events of each category for that day. Throughout the day they should post the top events in any order. There will also be a page showing the highest rated galleries and photos from these galleries can be posted through the day. It is mentioned within the privacy policy that Fomo-Events will be allowed to post the top events and galleries so that we don't touch any privacy problems. The story should be used to display galleries and photos of these top events. When deciding an event should be saved as a highlight on instagram all admin must have agreed to it.

-The snapchat account should be a pass on account like OC 256 but only for clubbing and festival/concert events. The account shall be held by the chosen user for the chosen event's starting to ending time.

-On all accounts we only follow admin, unless all admin have come to an agreement that an unrelated account should be followed for beneficial reasons.
