

## Clarifications Needed

- How much are the legal fees?
- At what point do we have to start paying taxes?
- Does a web application fall under a service? And will we be taxed for income through the website?
- Is the name FOMO Events available?
- Are we able to trademark this name? If not what must be done for us to trademark our company name?
- Will we be allowed to function outside of Uganda? For example launching our web application in Kenya and Rwanda?
- Do you approve of our websites terms and conditions?
- After this meeting, what are the next steps necessary to open the company?

Other names if FOMO Events is not available:

- Just "FOMO"
- Atmosphere
- 
-
